INFORMED CONSENT
 QUÉ FUNCIONA PARA EL DESARROLLO, a non-profit organization dedicated to the evaluation of social programs is performing the evaluation phase of the Research and Support to Maize Fertilization Program (PIAFEM) for the year 2015. We would like to gather information about your farming practices, your plots and your environment. This information is strictly confidential and will only be used for statistical purposes to improve the design of the support program. Your name will not be published along with identifiable information. Your participation is voluntary and you may choose not to answer any given question.
 Is it clear that you have the right to participate or not in this survey?
 1. YES 2. NO -> Explain and ask again until the information is clear.

You have to use all the chips, but you may leave empty boxes. If you don't place any chips in a box it means that you believe that option is impossible to happen in the future. The more chips you place in a single box, the more probable you believe that outcome to be"
